As pioneers of the future,  
we are always developing  
innovative solutions in the  
field of global logistics.

## DB Schenker Global Projects

As global industries become more and more complex, industrial projects demand logistics experts with global experience. DB Schenker Global Projects & Industry Solutions has that expertise.

With strategic bases worldwide, DB Schenker Global Projects & Industry Solutions provides the full range of freight management logistics. Whether you require fast deliveries or complex project movements, we manage every detail to get your cargo to the right place, at the right time.

We are committed to staying a leader in global logistics. When you work with DB Schenker Global Projects, you are working with a global, integrated logistics partner who pushes the limits and challenges the status quo of global logistics projects.

**Our tailor-made logistics solutions serve a wide range of global industries, including:**

- Energy Projects – e. g. Power Plants, Water and Utilities and Renewable Energies
- Oil and Gas and Petrochemical Complexes
- Mining and Heavy Industries
- Civil Construction and Infrastructure Projects, e. g. Railways

As a global industry leader in logistics, we bring you the know-how and experience to ensure your project is a success, no matter what challenges it presents.

## Our Industry Solutions

At DB Schenker, our expert teams develop integrated, multimodal transportation concepts designed specifically for the complexities of your industry.

Our dedicated team of specialists brings customer-focused solutions to your projects. From shipping equipment for your projects, to managing the entire execution, we are here to help you every step of the way. Each solution is customized to your needs.
