

You **connect** the world
with **innovative solutions**.
So do we.

In our network we move tons of freight – worldwide, 24 hours a day.

Your connection to innovative and eco-efficient logistics services.

In a world built on global networks with instant and constant connection, it is increasingly important to deliver products to the market fast, flexibly and reliably. This demands an excellent process flow from supply, production and distribution to return and aftermarket services. With our bundled competences in the Vertical Market Electronics you benefit from proven solutions across the entire value chain.

Electronics industry-specific demands:

- Expansion into developing countries & diversification of market
- Stable and reliable supply and transport chains
- Changing distribution structures due to e-commerce and urbanization
- Global end-to-end solutions
- High volatility in shipment volumes due to strong seasonality
- Pro-active and flexible solution design for all shipment sizes across all transport modes
- Increased security focus & alignment across regions to protect high risk shipments
- Certified warehouse capacity and transport equipment
- Permanent visibility & monitoring
- Implementation of social & environmental sustainability activities

Your benefits from a partnership with DB Schenker:

- Global comprehensive industry knowledge, supported by dedicated staff in all regions
- Global high value network across all transport modes
- Minimized risk to your product with highest level of security and loss prevention
- Cost optimization across entire supply chain
- Innovative and proven solutions developed in collaboration with our customers
- Reliable capacity and exception management
- Integrated supply chain solutions
- Established intermodal products
- Full transparency in real time from end to end
- Eco-efficient operations, consulting and procurement

DB Schenker – integrated logistics for the electronics industry worldwide.

DB Schenker stands for the combination of performance, service and quality, regardless of the complexity or scope of logistics tasks and requirements. As an integrated logistics services provider DB Schenker operates and shapes the transportation network of the future, including Land Transport as well as Air Freight, Ocean Freight and Contract Logistics.

Our performance for your successful logistics.

We handle goods in end-to-end supply chains and offer our customers innovative and cost-efficient transport and logistics solutions of high quality and from one source. Furthermore, we are constantly enhancing logistical processes – locally, nationally and worldwide.

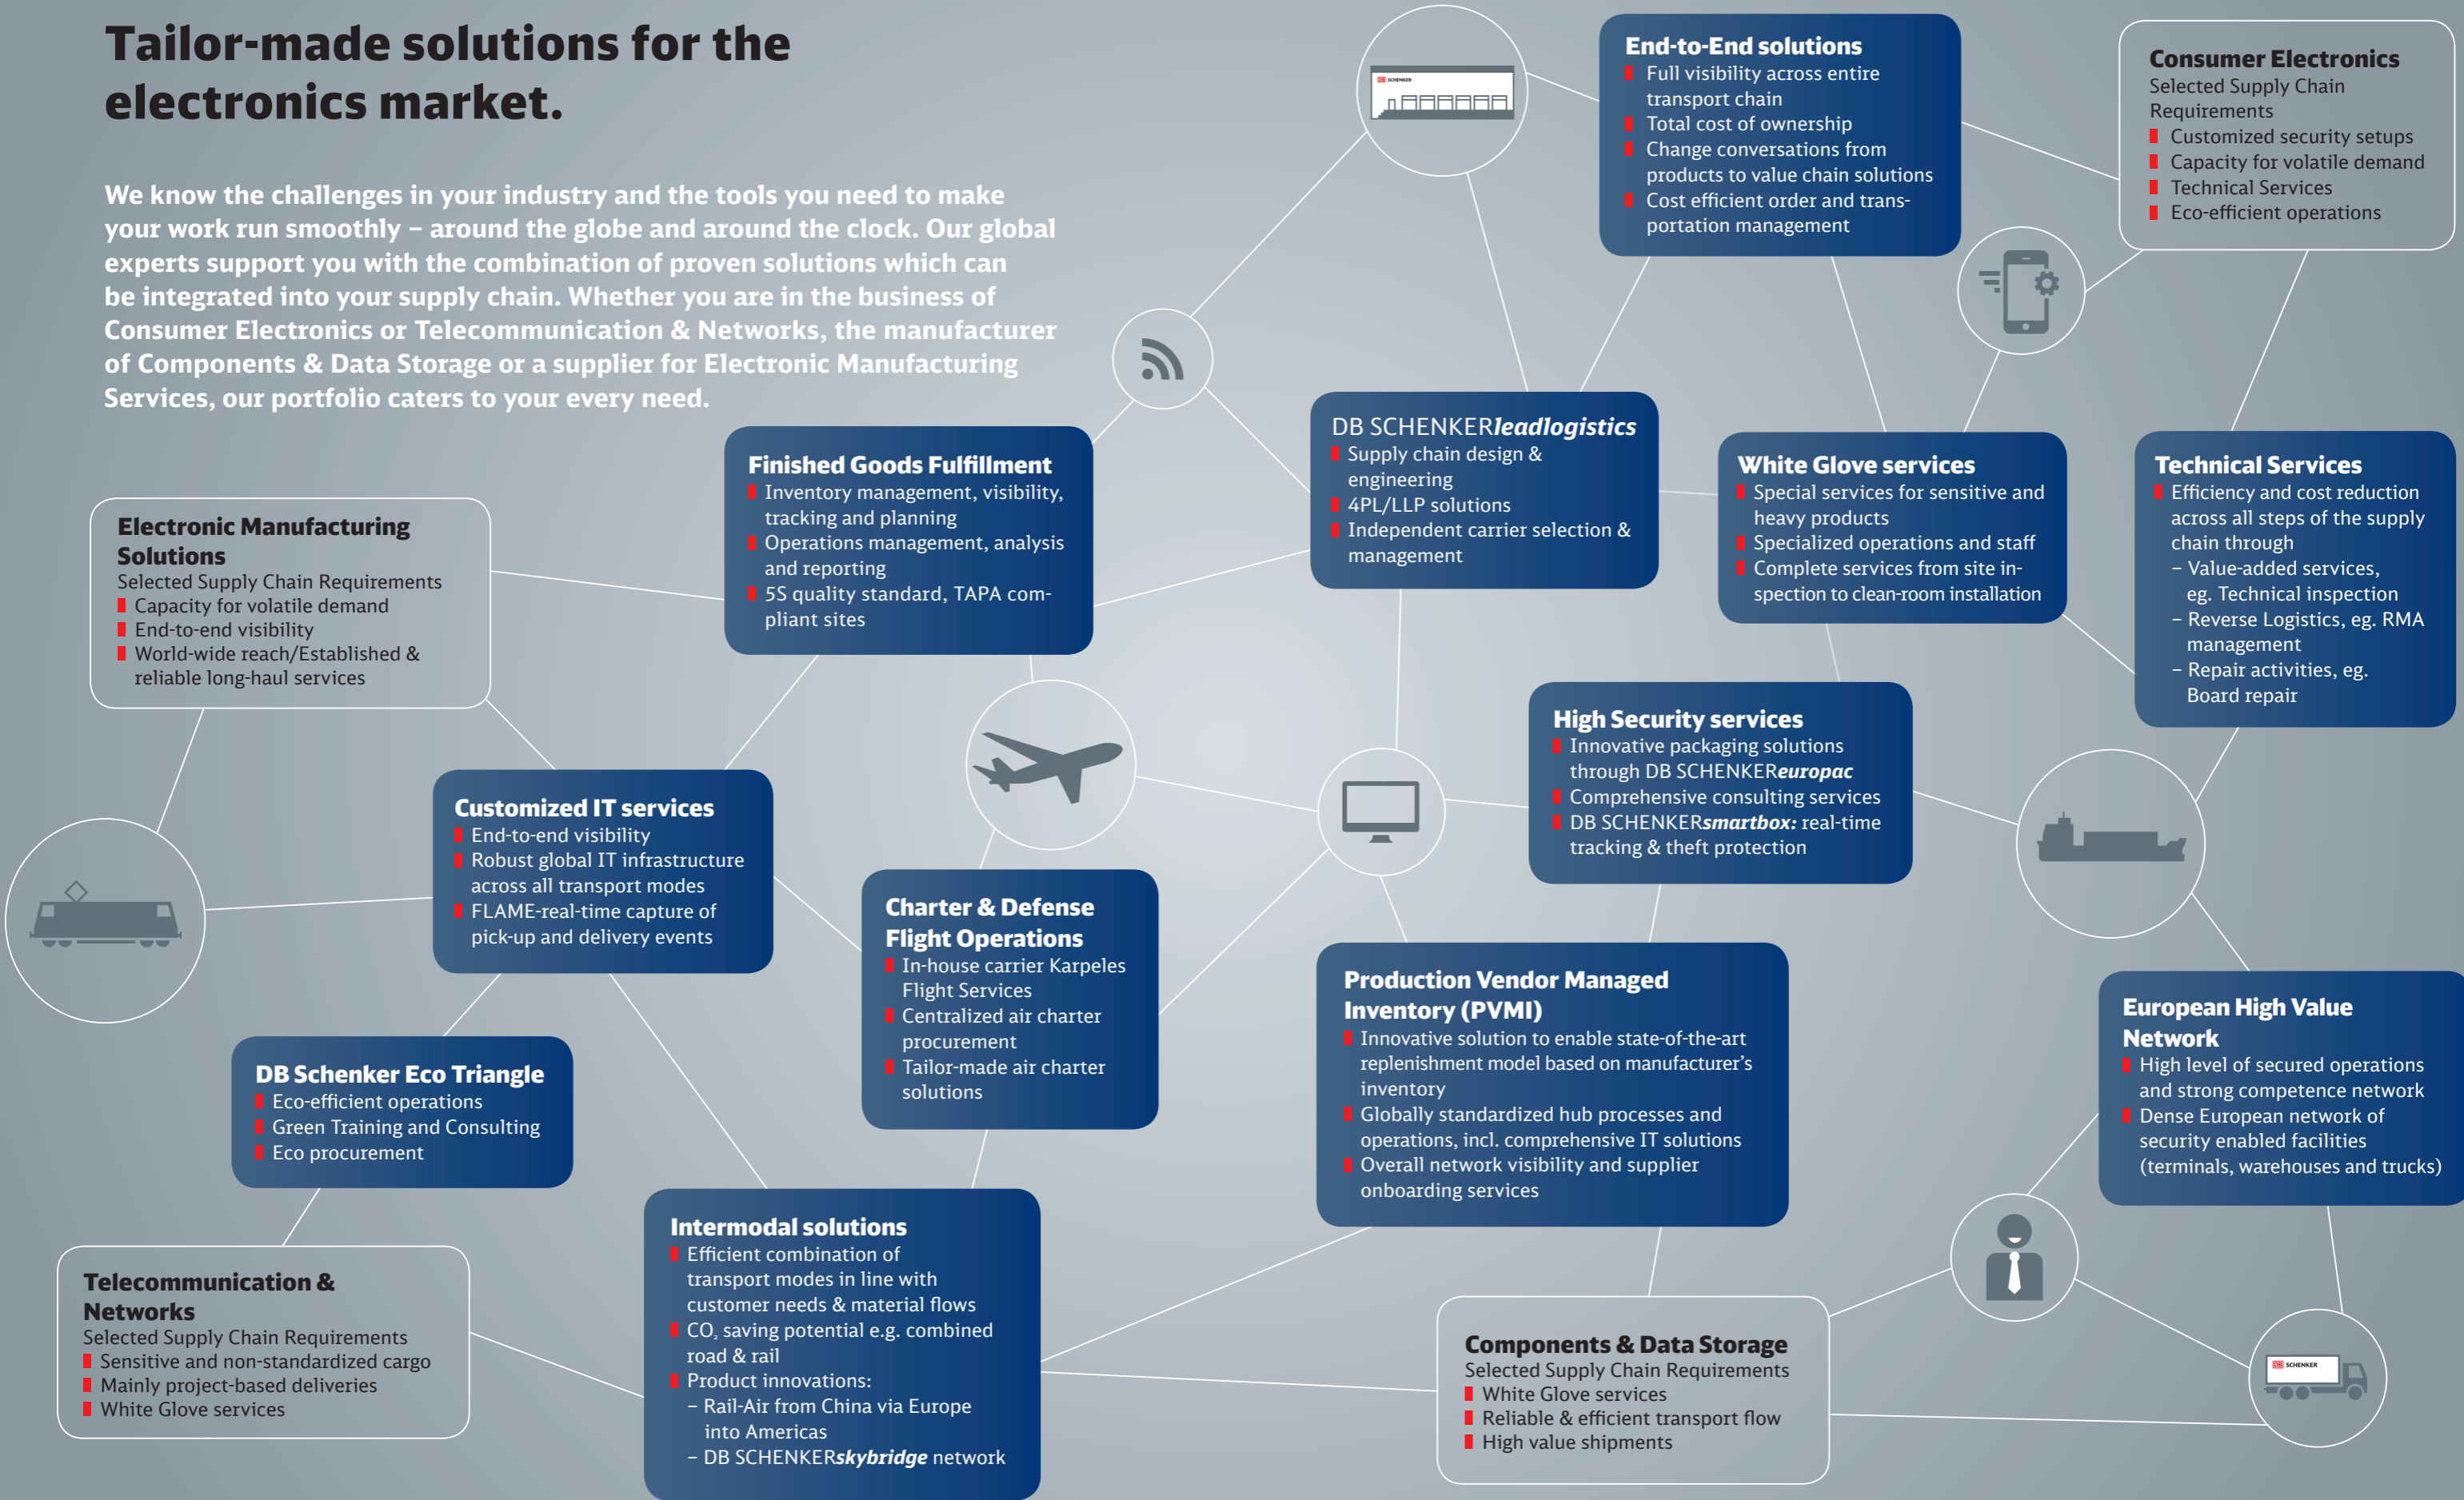

We have a presence in some 130 countries around the world; with over 95,000 employees we work in a world-wide network, but operate locally. Thanks, to about 2,000 locations in the world's most important economic regions, we have a global network dedicated to customer service, quality and sustainability.

Tailor-made solutions for the electronics market.

We know the challenges in your industry and the tools you need to make your work run smoothly – around the globe and around the clock. Our global experts support you with the combination of proven solutions which can be integrated into your supply chain. Whether you are in the business of Consumer Electronics or Telecommunication & Networks, the manufacturer of Components & Data Storage or a supplier for Electronic Manufacturing Services, our portfolio caters to your every need.

Key electronics projects driving innovative supply chain solutions.

- 1 Asia Landbridge: Cross-border trucking between SG, MY, TH and CN for consumer electronics products
- 2 CN-BR Rail-Air transport via DE for European Electronics brand (2a Northern route; 2b Southern route)
- 3 DB SCHENKERskybridge transport of notebooks from Asia to Europe & US via DXB (3a) and KIX (3b)
- 4 European High Value Network for consumer electronics goods with high security requirements
- 5 Strategic LLP model covering the whole supply chain in AU
- 6 Warehousing & Site delivery of telecommunications equipment in KE
- 7 Reverse Logistics and Finished Goods Fulfillment for consumer electronics brand in ZA
- 8 White Glove deliveries for leading networking company in North America

Other selected electronics projects of DB Schenker.

International

- Global: Multi-regional warehouse network for telecom equipment & worldwide installation services
- Global: Control Tower with high security services for high value electronics shipments
- Global: Eco-efficient, high security DC for global distribution of high value telecom products

- APAC/EMEA: Raw material management & FG fulfillment in CN, IN & FI for telecom company
- APAC: Inventory-optimized consumer electronics warehouse network in AU & TH
- Europe North-East: Scheduled transports for parcels in EU through DB SCHENKERparcel
- Europe Southeast: Technical Services and Reverse Logistics in CZ & SK for consumer electronics

Domestic

- Australia: EDI implementation and dedicated grading services for consumer electronics
- China: Central Procurement Logistics including VMI Hub Operations for consumer electronics
- China: CN VMI hub to support desktop & notebook PC production with local ODMs
- Egypt: Inbound and outbound shipments via air and sea for Finished Goods of consumer electronics brand

- Netherlands: Multi-client and dedicated Reverse Logistics and Technical Services
- Philippines: Aftermarket logistics for leading technology company
- Singapore: Reverse Logistics & Spare Parts Distribution for technology MNC
- South Korea: Reverse Logistics for enterprise mobility company
- US: Technical Services and Inspection for consumer electronics (Pennsylvania)
